M'Alister's All-Healing Ointment.

WRITE this Ointment it was upon the chest, and warmed into the feet, it not only acting on the organs of the chest, but the whole nervous system, feels its influence. It moves along on the nerves and thus finds its way to the liver, lungs, stomach and brain imparting increased activity and energy to these organs while it separates and sets free every impurity or humor that may be lodged there, and expels it to the surface. Hence the extraordinary rapidity and certainty with which it cures asthma, coughs and liver complaint. Also, headache, agues, consumption and spinal diseases.

Its first action is to open the pores of the flesh, impart tone and nervous energy to the skin, and then penetrate to any part of the internal viscera, and expel diseased and impure particles from the system. It performs precisely in sickness what nature performs for herself in health, taking the full use of every function of the body.

It is this power which enables the ointment to sweep off all cutaneous eruptions, skin diseases of every nature, also to subdue all inflammations, fevers and all bowel complaints—in short, by keeping the pores of the skin open and restoring health and nervous energy to all the organs of the body.

PORTS FOR, April 8, 1848

Mr James McAlister—Sir—Having purchased a few bottles of your Hair Oil last summer I persuaded my sister who had lost her hair from some disease of the head to try it. She had used Bogle's Hyperion Fluid and several other articles recommended for the hair, without any beneficial results but after having made use of your Hair Oil a short time the hair began to make its appearance and she has now a fine head of hair.

Respectfully yours
SAMUEL A BADGER

MADAME DOUPEE.

Female Physician.

RESPECTFULLY informs the Ladies of Boston that she will attend to all cases of Female Diseases.

Madame Doupee is well known in this country as a celebrated Female Physician from Paris. She has practiced in the city of New Orleans for ten years past with unparalleled success.

Madame Doupee attends only to the diseases of females. She is the widow of Dr Doupee of Paris, and uses the celebrated Pills known as Dr. Doupee's Female Monthly Pills. These Pills have long been in use in Europe and the United States, and are well known by ladies to be the great regulator of the menses, having never been known to fail.

Madame Doupee cautions married ladies not to use these Pills during pregnancy.

Females laboring under various weaknesses peculiar to their sex, may consult Madame Doupee with the utmost confidence, being sure of relief and a positive cure. The strictest secrecy observed in all cases. Price of the Pills $2,00 a box and a cure warranted in all cases. All communications (post paid) with a fee enclosed, will be promptly attended to.

Madame Doupee may be found at No 42 Union St, from 8 A M to 8 P M. w1w Feb 17

☞ *LOOK OUT,* LUMBER DEALERS!

THE SUBSCRIBER being engaged in the Commission Business for the sale of LUMBER, and whose business is confined exclusively to the sale of that article, solicits the patronage of the traders *on my down East*. Whoever may consign to him may feel assured that the highest market prices will be obtained, as he has every facility, and extensive accommodations for the reception of Lumber—a large experience in the business, and the most favorable location Philadelphia can afford. Being situated in the heart of the Lumber Business he can effect the most favorable sales and persons having Laths, Joist, Boards &c cargoes of Pacey, Harriet, Cash, Founder, Dropey of the Skin and Chisel, Dover Nurse, Jenkins, Hide Bound Inflammation of the Kidneys and Mange, I can set it to be a vegetable compound which operates upon the animal system in the same manner that Yellow Dock and Sarsaparilla operates upon the human system. I would call the attention of the horse owning public to the fact that nine tenths of the above diseases are contracted through neglect during the Moulting Season or time of changing the hair, which takes place during the most tedious season of the whole year, at which time the horse is exposed and neglected the pores of the skin close up, and the regulation of the fluids cease. If left in that condition, life use in some form must cease. It is at this time that I consider your *Invaluable Powder* invaluable, as it operates upon the pores and fluids of the skin, and causes the hair to fall out in the usual way, and for the new and healthy parts to grow in a fine and glossy appearance.

Important to Owners of Horses. Dillow's Celebrated HEAVE CURE!!

Which has been used with such astonishing effect in France and England for the last twenty years is now offered to the public in this country. It has been for the last two years performed the most wonderful cures ever recorded in this Country. More than

20,00 Horses Heaved,
2300 cases of Horses Coughs and Colds,
1000 cases of Catarrh and Nasal Gleet,
1500 cases of Affection of Bronchial Tubes and Glands,
500 cases of Thick and Broken Wind, and
800 cases of Inflammation of the lungs,

Have been cured by this external only remedy, since its introduction in the United States. The following is one of the hundreds of certificates in our possession proving its Universal efficacy.

NEW SCOTLAND, Albany Co, N Y, February 17, 1848

Mesars Ford & Grant, Gentlemen—I have to transmit to you, my certificate, for the benefit of those who may have horses similarly afflicted.

I hereby certify, that one of my horses in the winter of 1846 7, became afflicted with the heaves to the most aggravate form—which I believed to rendered him worthless. Having heard of the unparalleled popularity of "Dillow's Heave Cure" I purchased the 3 pack of the same to him, and it entirely removed the disease. From that time to the present, he has been in perfectly sound condition.

JAMES M WILLIAMS.

UNIVERSAL CONDITION MEDICINE

Read the testimony of an eminent Boston Farrier

BOSTON, January 9th 1848

Messrs Ford & Grant Gentlemen—At the request of your Agent here I send you my opinion of your celebrated Dillow's Heave Cure. As an *Universal Condition Medicine*, as well as a sure cure for the Heave and all diseases arising from an affection of the bronchial tubes, pulmonary and submucous membranes of the lungs, and also from its general and alterative properties, I recommend it to be the best medicine extant, for cases of Farcy, Mortmal, Cash, Founder, Dropsy of the Skin and Chisel, Dover Nurse, Jenkins, Hide Bound Inflammation of the Kidneys and Mange. I consider it to be a vegetable compound which operates upon the animal system in the same manner that Yellow Dock and Sarsaparilla operates upon the human system. I would call the attention of the horse owning public to the fact that nine tenths of the above diseases are contracted through neglect during the Moulting Season or time of changing the hair, which takes place during the most tedious season of the whole year, at which time the horse is exposed and neglected the pores of the skin close up, and the regulation of the fluids cease. If left in that condition, life use in some form must cease. It is at this time that I consider your *Invaluable Powder* invaluable, as it operates upon the pores and fluids of the skin, and causes the hair to fall out in the usual way, and for the new and healthy parts to grow in a fine and glossy appearance.

THOMAS JONES, Farrier
No 10 East Street

CAUTION—The astonishing success of Dillow's Heave Cure for the last two years, in the U States, has induced several persons to imitate and counterfeit it, and even go so far as to caution the public against it and endeavor to deter by so doing from purchasing the only genuine article. We declare that "*Dillow's Heave Cure*" is the first article of the kind ever introduced into the United States, and we hereby offer the sum *Five thousand dollars* to any person who will prove to the contrary. Consequently all others must be imitations.

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE art cles above named are the principal ingredients of this medicine. With these others of vegetable origin are combined, designed to render them more active, and consequently more immediately effective.

The Dock, or rather a species of it, now ranks as a medicinal plant second to no one of the vegetable kingdom. With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on and least liable to decomposition, is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time, without heat or any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofulous Erysipelas, Ulcerous affections, Eruptions and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers, and other abuses of the constitution, among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints, and Dyspepsia or Indigestion.

In diseases of warm climates, with which the proprietor has become familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and a preventative.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, in whom he is known.

Prepared only by Dr Stephen Cummings, and sold at wholesale and retail by Joshua Burgin & Co No 165 Middle street, and Edward Mason, No. 163 Middle street—only agents for Portland.

Sold in Bangor by G. W. LADD and JOSEPH S INGRAHAM.

WHIG NOMINATIONS.

FOR PRESIDENT

ZACHARY TAYLOR.

FOR VICE PRESIDENT,

MILLARD FILLMORE.

"For my part, in the dark and troubled night that is upon us, I see no star above the horizon promising light to guide us, but the intelligent, patriotic, united Whig Party of the United States."

DANIEL WEBSTER.

"If Gen. TAYLOR is elected he will do more to curb the Spirit of Conquest, and check the Spread of Slavery, than any other man the Whigs can elect." JOHN Q. ADAMS.

☞ We give below the list of Taylor and Fillmore Electors—as we have made it up. We believe it is correct. Will our friends in the several districts examine it and if there is any mistake in the names give us notice.

AT LARGE,

Bushrod W. Hinkley, of Bluehill
Charles S. Daveis, of Portland.

1st Dist	GIDEON TUCKER, of Saco
2d do	THOMAS A DEBLOIS of Portland
3d do	JAMES H. BRAMARD of China
4th do	JOSEPH B BRIDGE of Dresden
5th do	CHARLES H PIERCE of Frankfort
6th do	ISAAC HODSDON of Corinth
7th do	ANDREW PETERS, of Ellsworth.

The Skies bright and brightening.

The Presidential election is near at hand and the people are looking with earnest interest for the signs of the times. We have looked over the whole ground, and assure our readers that the signs are propitious. The last letter from Gen Taylor has served to unite the Whigs in his support. The honest democrats are also coming into his support, in all parts of the country.

Mr Clay has with great emphasis, and in most unmistakeable language refused to be a candidate, and goes in for the old hero. The threatened storm in New York has entirely blown over—and all parties agree that Gen Taylor will obtain the vote of New York by a very large plurality.

In Ohio there will be a hard struggle, but the efforts of Corwin, Erwin and others have resulted in consolidating the force there and the feeling is very strong that Ohio will also vote for him. Those who know best, say that there is no doubt of such a result. Massachusetts is waking up and will appear at one time as a somewhat formidable third party, since the nomination of Van Buren, has grown less day by day, and is destined to be, as in this State, but the old abolition party with new wind-bands and ruffles.

The indications from Pennsylvania are cheering and we feel a strong conviction that as in 1840, the old Keystone State will join her voice with the others in favor of the dreadhearted, honest and patriotic Taylor. If there is any thing to offset to this picture, I must be found in the South, where Cass is urged and believed to be devoted, to the extension of slavery over the new territories. Gen Taylor will give them no such pledges and an effort is making to defeat TAYLOR in the South, because he will not place himself in the same position as Cass on the subject of slavery. But look at the whole country we assure our friends that the prospect is cheering, and never better than at this time. Will not the Taylor men in Maine arouse, organize and make a vigorous effort to give our vote to the man "that never surrenders. It MUST BE GIVEN TO Cass or TAYLOR. All votes for any other candidate are entirely thrown away and count nothing. Will candid, reflecting men think of this?

Old Liberty Men look Here.

Martin Van Buren, in his letter to the barn burner a convention at Utica, June 20, 1848, said—

"I do therefore unhesitatingly approve the course you propose to pursue in withholding your votes from Gov Cass and shall do so myself. If no other candidates join those now *before the country are presented* I shall not vote for President.

The candidates 'before the country' then were Lewis Cass, Zachary Taylor and John P Hale. Martin Van Buren, then, on the 20th of June last publicly declared that HE WOULD NOT VOTE FOR JOHN P. HALE' and you are now asked to vote for Martin Van Buren!

The New York Evening Post, a Van Buren paper, has the following. It may be remarked that Mr Croswell is the editor of the Albany Argus, the leading Cass paper at Albany, and that he is largely implicated in the failure of the Canal Bank at Albany.—

Heroes.—The Hunkers have a most heroic set of managers and candidates. They have now before the country,

Cass—the Hero of the Broken Sword
Cushing—the Hero of the Broken Leg
Croswell—the Hero of the Broken Bank
Walworth—the Hero of the broken down Court of Chancery.

Starved to Death.

A family of English people arrived at Cincinnati about four weeks ago, and entered rooms in the Fourth Ward. A lady in the neighborhood having some suspicion a few days since that all was not right, called on the family and learned the melancholy fact that they were in a starving condition. They had not one morsel of food for three days. The man died the next day, and the wife a few days afterwards. The children, three in number, were adopted by gentlemen in different parts of the city.

Use of Long Evenings—Cheap means of popular instruction. The Mechanic Association, Lyceum and Mercantile Association.

The season of the year has nearly arrived when the people in many of the cities and large towns of New England—we wish we could say *all* the towns—seek for instruction and intellectual entertainment from lectures and other exercises through meetings of a Lyceum or other popular association.

Occasionally may be found a person who doubts the utility of sustaining such associations and who considers a Lyceum as a sort of licensed school for the display of empty nothingnesses in gorgeous dress. Perhaps the objector may possess so large a mass of wisdom himself as to enable him to look down into any subject discussed far beyond the deepest search of the best lecturers, and view there an illustrated world beyond. He may be so great a master of all matters of taste and arrangement that to him every effort of others is tame, crude and disjointed—and hence his dislike of Lyceum exercises. Or that such men, if there be such, would in mercy, from their sublime elevation, take the clouds above the earth, pour out upon the mass of society beneath them some gentle, vivifying showers of their wisdom, and distil some kindly dew of their treasures to moisten and stimulate the growth of other minds just opening their buds to the sunlight!

But notwithstanding these objections, which have in fact no real basis, the common sense of the common experience of every community where Lyceums and other similar intellectual associations have been heartily sustained, unite in giving testimony in favor of them. In our city this is eminently the case. Who of all those who have for years attended the exercises of the Mechanic Association and of the Lyceum would now consent to forego the benefits and pleasures resulting from them? Few indeed if any.

The Mechanic Association have given notice that their regular weekly meetings will be commenced on the first Friday evening in October. This betokens, as usual, a disposition to improve the long evenings for mental improvement and entertainment.

Of the Lyceum we hear nothing as to the arrangements for the season, but we may, soon, in most doubtly, expect a programme from the Managers of the exercises for the season that is so soon to commence.

The Mercantile Association, we have heard stated, intend the present season to bring out a brilliant course of lectures for the benefit of their members and their families, if not for the community at large.

These movements are very gratifying to us. They prove that Bangor people understand the importance of maintaining their intellectual standing by attending to their mental wants.

Man is a compound being. In his material structure he is the representation, the focus of the whole universe of matter, while his moral intellectual and spiritual natures make him a representative, in the least form, of he ven.

In him we find the universal nature of matter and spirit, of men and angels—the lowest as well as the highest of each. He has a mind with indefinitely varied faculties, each of which is susceptible of indefinite growth and expansion. In its growth it may be compared to the frame of a building, every new subject mastered, every acquisition made, puts in a new beam that strengthens and supports it and makes it easier to add another, or better perhaps, we may compare it with a tree every new branch or shoot of which is the parent and then the grand parent, and so on indefinitely, of a constantly increasing posterity of shoots, twigs and branches. The more the tree grows, the greater is its capacity of growth, and so of every twig and shoot.

It is not then to be wondered at that those who have examined the map of man's capacities should be deeply anxious to cause their highest development and be earnestly solicitous for the promotion and upbuilding of those institutions among men which shall be in the highest degree promotive of the desired end. Among the elements and instrumentalities calculated to advance the intellectual and moral welfare of men and to urge society on to a higher state of improvement and a more desirable condition, we know of none more worthy attention and support than voluntary associations such as those we have referred to.

In intellectual and moral enterprises in an eminent degree, is association, the resistless and tramping fire horse on the track of mankind.—What like it can arouse, men to confidence in their capacities for improvement and the acquisition of intellectual treasures? What like it can give the mass of men an undaunted self reliance and an unyielding faith in their God given powers? Nothing.

We see a gradual improvement going on in society, because association is pouring every where over humanity, the golden truth of the natural equality of man in all he original and essential elements of intellectual and moral capacities, thus causing all under its influence to realize more vividly the great idea of a common nature and brotherhood, which underlays all our relations and which is so thickly woven in the web of all our essential interests.

Association by healthful attrition encourages each individual within its enclosure to work for himself and for others in the cause which it embraces. It begets a social concord and is continually whispering a word of encouragement, by telling man in language he cannot misunderstand, of the intellectual and moral resources of his nature, which he may develop, by which he may acquire knowledge that will enable him to stand erect among his fellows an equal with any other man.

The true and efficient one idea in is to have an association for each of the great enterprises of interest to man. This will secure to that object the hearty cooperation of all who are deeply interested in the object, and thus the greatest advancement may be made and the object be more speedily and certainly accomplished. In such associations there need be no conflicts on account of the narrowness of sectarism or the zeal of partizanship, since all special zeal for special objects may find their most fitting and efficient field of action in the association devoted to such objects. In the way the highest active enterprise may be directed straight home to the object, without oblique opposing influences, or direct impediments.

Every association among men for worthy objects is a bridge thrown over the dark waters that divide society, and thus serves to facilitate intercourse and bring men together at the proper time, and in many cases, the whole point, where they can harmonize. In this way the rough corners of their prejudices become lessened and all find at length that every man has some favorable point of contact, and that even enemies are not as bad as they had seemed.

There is a necessity, for Lyceums and other associations, growing out of the condition of men in our country. Without them they become engrossed with, and buried up under, the rubbish of selfish interests—cent per cent takes the place of mind widening and heart opening processes. Associations having for their special object the improvement of the mind and heart by self and mutual efforts among the members, draws off a too exclusive attention to money getting, and directs it for the time being, to other and essential interests. It is in this way that the boundaries of individual knowledge become enlarged and an active spirit of investigation is kept up. They furnish one of the most practicable methods for the improvement of society because they can accommodate themselves to all classes of the community, both as to time and objects. The apprentice boy who can command but a few hours time in a week may avail himself of a popular entertainment by starting one for himself, and others similarly situated.

This may be made available in teaching the alphabet, the key to all knowledge, or the most abstruse sciences.

Such associations are the cheapest as well as the most efficient elements for the improvement of society. They may be organized and set in motion with all its manifold power in a shop or church or public hall or a kitchen. It need cost but little, where ability is small, since they need only a place for meeting, a candle and a sheet of paper. And yet they may be indefinitely extended to embrace ponderous libraries and cabinets of instruments.

In the workings of popular associations in society, imperfectly as they have been conducted, no one can fail to see that somehow good thoughts and correct ideas spring up in the minds of those who associate and become after a while the common property of all.

We trust then of we have not misapprehended nor overstated the workings and advantages of these associations, as they have practically developed themselves in our city that our people will continue to give them an earnest support, and that other towns in the State, every town in the State will follow the good example here furnished.

Discovery of America in the tenth Century.

The annual meeting of the British Association for the advancement of Science has been recently held at Swansea, South Wales. Among the subjects presented to the notice of the Association was one in reference to the discovery of America in the tenth century.

Prof Elton read a paper 'On the Antecolumbian Discovery of America.' He said that memorials of the past, and especially such as related to the discovery of a great continent and excited peculiar interest in the human mind in all ages and among all nations. He would would state a few facts exhibiting evidence that America was known to Europeans as early as the tenth century.

An Icelandic historian, Torfinus, in the year 1705, claimed for his ancestors the glory of having discovered the New World. This claim had been strengthened by a work published by the Royal Society of Antiquaries at Copenhagen in 1837, and which had imparted a new impulse to the subject. The work was entitled Antiquitates Americanæ, sive Scriptores Septentrionales Rerum Ante Colum Transmarinis in America. It was edited by the learned Prof Rafn, of the University of Copenhagen, and published in the original Icelandic, and accompanied by a Danish and also a Latin translation. This work gives an account of the voyages made to America by the Scandinavian Northmen during the tenth, eleventh, thirteenth and fourteenth centuries. Their accounts of these early voyages are published from authentic manuscripts which are dated as far back as the tenth century.

From this work it would appear that the ancient Northmen explored a great extent of the eastern coasts of North America repeatedly visited many places in Massachusetts and Rhode Island, fought and traded with the natives and attempted to establish colonies. The most Northern region they called Hallaland (flat slate land) the country further south they named Markland (woodland) and the country most southern they called Vinland (vineland) which is supposed to have extended as far South as Massachusetts or Rhode Island. The general features of the country accord with the description which they have given. The discovery of America by the Northerns is confirmed by an inscription on a rock on the bank of the river Taunton, at a place called Dighton in the State of Massachusetts, and which, until recently, had defied all efforts at interpretation.

The earliest New England colonists observed the mysterious characters on this rock, and more than 150 years ago Dr Cotton Mather, of Boston, sent an imperfect drawing of the inscription to the Royal Society. It also attracted the notice of the Rev Dr Styles, President of Yale College, nearly 100 years ago, who sent facsimiles of the inscription to many learned societies in Europe,—but all attempts to decipher were vain. An accurate drawing of the inscription was made by the Rhode Island Historical Society a few years since, and a copy was sent to the Royal Society of Northern Antiquities at Copenhagen, which led to a more satisfactory result. The surface of the rock which bears the inscription is about 12 feet in length and 9 feet in height and is covered with hieroglyphics, forming three distinct lines.

The characters are deeply engraven in greywacke, and must have required the labor of several days. The lower part of the rock is subject to the constant action of the tide, in consequence of which several of the characters are obliterated. The word "Thorfinus" and the number "132" are distinctly marked. The "Th" in the Thorfinus are in Icelandic characters, and "orfinus" in the Roman. The 132 was engraved in the ancient Roman form of writing numerals. The circumstances of the Roman letters being used may be easily explained.—Christianity was introduced into Iceland about the end of the tenth century—at which period there was evidence that the Latin language was cultivated in that country at least by individuals.

Now, there is a remarkable coincidence between the monument just described and an account in one of the manuscripts published in the "Antiquitates Americanæ." It is here stated that Thorfinus, an Icelandic chief, made a voyage to Vinland in the year 1000 and that in the course of three years he was killed in a battle with the natives. It is worthy of observation, as proving that they had some knowledge of Christianity that a cross was placed at the head of his grave. The particulars of Thorfinus' voyage and his frequent battles with the natives are also minutely recorded. His wife, who accompanied him to America, returned after his death to Iceland with her son, who was born in America.

This son of Thorfinus became a chieftain and from him, according to the genealogical tables, late descended many eminent men, including Prof Finni Magnussen and the celebrated sculptor Thorwaldsen. The author concluded by alluding to the supposed discovery of America by Prince Madoc in the twelfth century; the only information respecting which was received from the poems written by Meredyth-ap-Rhys in 1478, of Geyr Owen in 1480, and Cynfyn-ap Gruow, who lived in the same period.

FROM JAMAICA.

New York, Sept 27, 2 P M

Advices from Jamaica to the 6th inst have been received at Baltimore. No further mention is made of an outbreak among the negroes.

Hayti.

Advices from Hayti state that things had settled down in a great degree. Four persons condemned to be executed had been pardoned by the President.

From the Pacific.

Capt Deale, who left New York in charge of a Peruvian war steamer, has returned. He brings later intelligence from Peru. The war was still going on in Peru between the established government and the insurgents. On the 19th July, Arnica was captured by the Government troops.

The insurgents lost one hundred and two killed and wounded. The government troops had ten wounded. The officer in command of the troops and a few men were taken prisoners.

The Sub Treasury.—Secretary Walker has arranged to let loose $800 000 from the Sub Treasury, having bought that amount of Treasury notes at par. He agrees to reissue the same amount to the same parties and at the same rate.

The U S Loan. It is stated officially, that Mr Corcoran has positively arranged for a portion of his loan.

From the British Provinces.

St John, (N B) papers of the 26th inst state that recent rainy weather had injured the crops both of grain and potatoes, and the rot had appeared among the latter generally. Three men had been drowned in the harbor at St John, N B, by the capsizing of a sail boat. Their names were, Richard Magee, Wm Fairbanks, and John M Smith, the two latter were clerks.

Gunnison's Express reports that the steamers Rowland Hill and New Brunswick came in contact in St Joan River, by which the latter steamer was sunk, and it was feared would be a total loss. Damage upwards of $20,000.

For Taylor.

At the Clay meeting in New York on Tuesday evening, Hon John M Botts made a speech in which he came out strong for Gen Taylor.—The meeting was large, but very disorderly.

Another Great Conflagration at Constantinople.

In the foreign news, we stated that the city of Constantinople had been, for a second time within the last six months visited by a destructive conflagration. The estimate of buildings estroyed is 3 000 of which 2500 were shops and 500 houses. Of the latter a number were new buildings and palaces besides several khans and mosques, four baths and two public granaries. About thirty vessels of different descriptions laden with wood, charcoal &c, were burnt as likewise the extensive Government wax manufactory and wood yards, and a quantity of produce belonging to the Pasha of Egypt. The damage done by this great conflagration was estimated to amount to from 10 000 000 to 15, 000 000 dollars, nearly 3 000 000 sterling. The bale of the bazaars and shops consumed were filled with valuable articles of merchandise. No foreign vessels were burnt. A great number of men were lost, and many Europeans strictly weal thy people rendered houseless and ruined.—Balt Pat

Important to Shippers.

A suit has been decided in Louisville, which establishes the principle that a merchant may recover damages for loss occasioned by the fall in the price of an article he has shipped when that loss is caused by the neglect of the officers or owners of the boat to leave port at the appointed time.

In the suit referred to, five hundred barrels flour were shipped on board the steamer Geo Darling, at New Orleans, and an advance paid of five cents per barrel freight, purporting to proceed to New Orleans and thence, in consequence thereof. The boat however, was detained for some time, and the price of flour had materially declined in the southern market. The Judge decided in favor of the plaintiffs, until and ordered that the owner or owners of the Grace Darling shall pay damages to the full amount of the loss sustained by the shippers in the detention of the produce from the market.

Death of Hon. J. L. Martin, U. S. Chargé des Affairs at Rome.

The Express publishes an extract of a letter, dated Aug 28th, which announces the sudden death, by apoplexy, of Hon J L Martin, at Rome, on the 26th ult. His remains were to be interred Aug 29th. Mr Martin held a distinguished position at Paris for several years, and his death will be much regretted by the many Americans who were the recipients of his courtesy when abroad.—N Y Jour Com.

A Survivor of the Boston Tea Party.

The Chicago Daily Journal lately received a call from David Kennison the only surviving participator in throwing the tea overboard in the Charlestown harbor. He draws a pension of 8 dollars per month. He is one hundred and eleven years old, and has a son over sixty years of age. We consider him the greatest curiosity of the day, and almost the last link between the American Colonies and the United States.

The New York Evening Post, (Van Buren) in explaining the Buffalo Platform, says that the Free Soil Party will *not consent* to any modification of the Tariff of 1846, which *shall increase the present rate of duty, or the present amount of protection.*

The old Liberty men in New England who went mainly from the Whig ranks, and who still believe in the justice and expediency of protecting American labor from the ruinous effects of foreign competition, will do well to mark this declaration.

☞ *Most Extraordinary Work!* ☜

THE MARRIED WOMAN'S PRIVATE COMPANION. *By Dr A M Mauriceau, Professor of Diseases of Women.—Sixth Edition. 18 mo. pp 250. Price $1. 25 000 copies sold in three months!*

Years of suffering of physical and mental anguish to many an affectionate wife, and pecuniary difficulties in the husband, might have been spared by a timely possession of this work.

This intended especially for the married, or those contemplating marriage, is it disclosing important secrets which should be known to them particularly.

Truth, knowledge is power. It is health, happiness, affluence.

The revelations contained in its pages have proved a blessing to thousands as the innumerable letters received by the author will attest.

Here also, every female can discover the causes, symptoms, and the most efficient remedies, and most certain modes of cure in every complaint to which her sex is subject.

On the receipt of One Dollar, the "Married Woman's Private Medical Companion" will be sent (*sealed, free*) to any part of the United States. All letters must be addressed, post paid, to Dr A M Mauriceau, Box 1924 New York city. Publishing Office, 129 Liberty st, New York.

Travelling Agents and Informer that a few districts in Massachusetts, and two other Eastern States, are yet unengaged. Applications received (post-paid) as above.

For sale by W FETHERWOOD, East Side Bookstore.

Notice to Young Men.

A Class for instructing young men in operating the Magnetic Telegraph, will be opened in this city on the 5th of October. A complete apparatus, being the whole that formerly belonged to an office, will be used in the school, and the instruction such as will enable all who enter to take charge of a station. The teacher has had three years management of an office for more than two years on the New York, Boston and Lowell line, and flatters herself that she has become a competent teacher.

She will enter the names of those who desire on the Eastern or Western lines, and her recommendation has been, and is still, taken as a pledge of qualification.

Those who would like a pleasant business, with a good salary, will do well to attend. Reference to J. E. Hanscom.

Bangor, Sept. 29, 1848.

☞ *Silence that dreadful Cough.*—This is the first warning of Consumption. The great and only certain remedy for the worst of Coughs, is Buchan's Hungarian Balsam of life. It stands alone in its triumphs.

From Reed & Waters, Troy, N Y. It is more than a year since we have been selling as agents for the sale of Buchan's Hungarian Balsam of Life, and in justice to the proprietor of this valuable medicine, we must say, that we have never sold an article that has given such universal satisfaction to all who have used it.

Pamphlets respecting this great English Remedy may be had gratis of DAVID BUGBEE and C W LADD, only agents in Bangor. Stawd&w—o2

State of Maine.

HEAD QUARTERS
Augusta Sept 1 1848

THE appointment of companies to the several divisions of the militia of Maine according to the provisions of the law now in force gives to the

1st division		29 companies	
2	"	22	"
3	"	15	"
4	"	24	"
5	"	26	"
6	"	22	"
7	"	13	"
8	"	21	"
9	"	26	"

It will be seen by this law that divisions are allowed the term of two years to raise their quota of volunteers, at the expiration of which on failing to furnish the number of companies to which they are entitled other divisions will be authorized to raise them on petitioning to the commander in chief. It is hoped that the martial spirit of our citizens has not become entirely extinct by the long suspension of active military service, but that there still exists in our State those military and patriotic impulses that will ensure a willing and prompt return to duty and a vigorous organization in each division of the militia of Maine of all the force allowed by law.

Independent companies already organized are invited to join the volunteer corps of our State, and whenever they indicate to this department their wish and determination to comply with the provisions of law they will be furnished with arms by the State.

Our citizens generally are also invited to organize new companies with becoming promptitude, petitions for which may be forwarded to the office of the Adjutant General.

The State has now on hand a variety of muskets and rifles and in a few weeks will be in possession of nearly one thousand percussion rifles, of the latest and most approved model which will be subject to the order of companies first making application.

By the Commander in Chief,
ALFRED REDINGTON

NOTICE.

THE AMERICAN AIR TIGHT COOKING STOVE, Pierce's Patent, manufactured by Johnson & Cox, Troy, N. Y.

The aforesaid Patent having been fully established by the judgment of the Circuit Court of the United States at Boston we hereby give notice that GARDNER CHILSON of Boston, has the exclusive sale of said Stove for Massachusetts, Rhode Island, Maine and New Hampshire. All infringements on said Patent will be promptly prosecuted.

JOHNSON & COX.

Troy, N. Y. July 1st, 1848

The American Air-Tight Cooking Stove,

If this is not the best Stove in use, why so many attempts to infringe upon it? This suit was brought to sustain the Patent and to stop the infringements, and after a most thorough legal investigation these rights were promptly decided, fully sustaining this Patent.

More than Ten Thousand of these Stoves are now in use. The testimony of this multitude, the past year establishes the fact beyond a doubt that there are more good and useful qualities combined in this Stove than ever was or probably ever will be found in any other Stove. The fire-brick oven top is of great value in equalizing the heat around the oven absorbing the steam, causing the bread &c. to rise and bake light and quick—and giving bread, puddings &c. that flavor of the house brick oven. The kitchen for roasting in front, is complete. The summer arrangement for broiling, frying, boiling, heating of irons &c. is admirable.—The great economy of fuel, substantial construction and general good quality of this Stove is the source of its universal admiration.

For sale, wholesale and retail at the Stove, Range and Hot Air Ventilating Furnace Establishment Nos. 51 & 53 Blackstone Street, Boston.

GARDNER CHILSON.

Sept 17 2m

NOTICE.

WARMING AND VENTILATION, on correct and philosophical principles as recently adopted by a unanimous vote of the School committee of the city of Boston, as will be seen by their printed reports of 1847 and 48 which, after being thoroughly tested in public and private buildings, has been generally adopted, in concurrence with the views of several other scientific committees and all other gentlemen whose experience has enabled them to become conversant with the method of warming and ventilating dwellings, churches, school houses, hospitals, factories, stores &c. with an abundant supply of fresh, healthful warm air. The fault not being allowed to be burnt or dried in any circumstances, consequently the oxygen in the air is not destroyed by coming in contact with red hot iron furnace pots or plates.

This is abundantly proved itself to be a complete and perfect system.

The subscriber having had the practical knowledge and experience in the construction and erection of these improvements, from their commencement, being the inventor of most of them, enables him to correct in theory and practice.

He will give his personal attention to the erection of his Brick Hot Air Ventilating Furnace, and his Portable Ventilating Furnace, Dr Clark's Patent School Stove, also, arranging the Ventilators and Ventilators in all parts of the United States, and by addressing him at the Stove, Range and Hot Air Ventilating Furnace Establishment No. 51 & 53 Blackstone street, where orders will be promptly executed. GARDNER CHILSON

Boston Sept 27 1848 2m

Broadway School.

THIS institution recently under the care of Mr WETHERBEE in this city opened under the direction of Rev G. C. V. FREEMAN, late Principal of the Litchfield Institute Litchfield County. He receives pupils of both sexes and spares no efforts to render the school worthy the popular estimation it maintained under his predecessor.

The course of instruction embraces all the branches usually taught in select schools and the classical studies preparatory to admission to any of the colleges.

For terms of admission application may be made to the instructor or to Mr GEO R SMITH

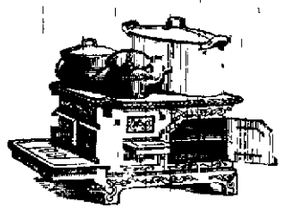
AND

Nos. 2 & 4 Wall Street, BANGOR.

BAY STATE COOKING STOVE.



THIS Stove now stands prominent above all others for simplicity, beauty, convenience and economy. Science and Art have joined hands in the combination of this Stove and given to the world the highest and best specimen of their union in this masterly production. So universal is the testimony of housewives in favor of this Stove that the purchaser in all cases is allowed to use the same for four weeks, and if not found to be entirely satisfactory the Stove can be returned and the money will be refunded and all expenses paid.

This Stove can be instantly changed either to a common draft Stove or to an Air Tight. It has the largest oven of any Stove of its size and cast ever made, and it bakes to a charm. Broiling is effected over the common fire of the Stove. It has four openings for Boilers. It is an adornment of kitchens and takes the lead out and out of every sort of Stove yet constructed. It is believed to be the greatest effort of human skill, not only for its unapproachable convenience, but also for its durability and its beauty. It was made to excel all others and all who examine it decide at once in its favor.

The public are invited to examine this Stove and by no means to purchase any other until they have learned its merits.

—ALSO—

The largest, richest, and most desirable stock of

STOVES,

of every variety, which was ever in the city, and which will be sold at *lower prices* than ever before offered. Among them are the following:—

Farmers' Company.

Washington Co. Mutual Insurance Company, at Granville, N. Y.

20,000 *Members—Over Ten Millions Insured, and a large accumulated Cash Fund.*

THE undersigned having been duly appointed an Agent of the above Company would respectfully call the attention of the public to the numerous advantages this Company have over all other institutions of the kind. They insure not but the safest kinds of property (being a Farmers' Company) and take no risks over $3000. Their policies are made on fair and equitable principles giving the insured an equal chance with the Company, being entitled to the full amount of damages not exceeding the amount insured, without deducting *one third* as is customary with some other Companies. They are prevented by their By Laws from insuring in Blocks or exposed parts of villages or from taking risks upon any kind of Mills, Shops or Machinery, that are considered hazardous, are responsible for the correctness of all surveys made by their Agents, agree to arbitrate all matters of difference in the county where the loss happens, and secure the insured the privilege of withdrawing at any time by paying his proportion of the loss while the policy is in force. Every loss adjusted by the members has been settled to the full satisfaction of the claimant and paid before it was due, and we can cite one of Indiana as the strongest evidence of power that the premiums of the Directors in making the Mutual Benefit have been fully exerted.

Any person desirous of being insured will find it for his interest to examine the principles of this office and the plan upon which it is established.—Any information will be furnished at the office of Goss, Upham & Co. No 6 Broad Street.

MRS. E. KIDDER'S DYSENTERY CORDIAL,

—AN—

Immediate & Perfect Cure

—FOR—

CHOLERA MORBUS, DYSENTERY, DIARRHŒA, SUMMER COMPLAINTS OF CHILDREN, SEA SICKNESS, GENERAL DEBILITY etc., etc.

WHERE this all powerful remedy is at hand, Cholera Dysentery and Chronic Diarrhœa are no longer to be seriously feared or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours if taken at the commencement.

It has been before the public for more than sixteen years and was the first article ever made known to the public as an immediate and perfect remedy for these complaints. It has been thoroughly tested in every country and every climate, and its effects as every where proved the same—SURE TO CURE, even where the disease has advanced to the last stage. The public may rest assured that it contains no other opium or mineral substances, or any thing that is in the least injurious to the constitution.

Cholera and Common Cholera Morbus.

This Cordial immediately checks the vomiting relaxes the pains stops the Diarrhœa and restores the bowels to healthy action in a healthy state, however severe the attack may be or how far the patient may have become prostrated by the disease.

Severest cases of Dysentery,

are immediately counteracted, the pains assuaged, the bowels healed and in a few hours the bowels become perfectly regulated and restored in the short space of two or three days.

Chronic Diarrhœa,

either in children or adults, of months or years continuance, are most readily cured by this Cordial notwithstanding they may be reduced to a mere skeleton it immediately strengthens and shortly restores them to perfect health.

Cholera Infantum.

It has saved the lives of many thousand children when reduced to death's door by this complaint, it gives them immediate relief and they very soon recover.

Sea Sickness.

It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and speedily restores the patient. It invariably checks vomiting produced from any cause whatever.

Children that are Teething,

if inclined to Diarrhœa, should always be provided with this medicine as it will keep the bowels regulated and keep off the Cholera. It is wholesome, safe and pleasant to the taste and children are fond of it and will take it without trouble or dislike.

For General Debility and Dyspepsia.

It is a most excellent restorative giving a healthy tone to both the stomach and bowels and prevents food from presuming or disturbing the stomach.

☞ *CAUTION.*

Beware of the impositions which are daily palmed off upon the public, bearing the name of an article which is CHOLERA MORBUS DYSENTERY AND DIARRHŒA CORDIAL which unprincipled persons have no conscience. Also they have copied my advertisements and put many addresses. Doubtless they have done this for the purpose of palming off their worthless articles at the expense and reputation of this original and most popular medicine that ever came before the public.

Be sure that you obtain MRS. E. KIDDER'S Cholera Morbus Dysentery and Diarrhœa Cordial and you will get the only safe and original article which has ever been held in the highest estimation by the public throughout the whole country.

It is put up in bottles holding nearly a quart in sealed for family use and sold at One Dollar a bottle.

Sold by MRS. E. KIDDER, No. 100 COURT STREET BOSTON who is the inventor and sole proprietor. Druggists and Apothecaries supplied as formerly, in large or small quantities.

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This Extract is put up in Quart Bottles—is six times cheaper pleasanter and more certain and superior to any spirituous extract without exciting purging, sickening, or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, that it eradicates diseases at its operates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known. It actually purifies the whole system and strengthens as the person, but *creates new pure and rich blood*, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success—it has performed within the last five years, more than 10,000 cures of recent cases of disease, at least 15,000 were considered incurable. It has saved the lives of more than 600 children during the two past seasons.

10 000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY*

Dr Townsend's Sarsaparilla invigorates the whole system permanently. The those who have lost their vigor by the effect of mercurial or indirect from exposure or in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, loss of muscular tone, weak of intellect, failing sensations, premature decay and decline, hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant tonic by the Sarsaparilla in connection with other tonics.

INVIGORATING CORDIAL,

As a general tonic, it acts on all the system, gives an energy to the mind and strength to the muscular system, in a manner very astonishing.

CONSUMPTION CURED.

Diseases indicating Consumption such as incipient Consumption, Liver Complaint, Colds, Coughs, Coughs Asthma, Spitting of blood, Sore throat, Pleurisy, Night Sweats, Hectic Flush, Pain in the Side, &c., have been cured by this medicine.

SPITTING BLOOD

New York, April 28 1847

DR TOWNSEND—I was induced to try your Sarsaparilla in the last case, through Providence, of my daughter. I thank God it has cured her and saved her to my arms. At the time of her purchase of the bottle, she had night sweats and was greatly in debt and in a decline, and had been expected to live—I have only to add, that I have sold Sarsaparilla about three years, and there has a wonderful change been wrought in me. I am able to walk all over the city. I raise no blood and my cough has left me. You can well imagine that I feel thankful for these results.

Your obedient servant,

WM RUSSELL, 65 Catherine st.

RHEUMATISM

This is only one of many thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured. They are severe and of long standing, yet are rapidly eradicated by its extraordinary virtues.

Extract of a letter, dated Office of the assistants in the Lunatic Asylum, Blackwell's Island, N Y. a gentleman spoken of in the following letter.

Blackwell's Island, Sept. 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, consequently at the time I could not eat, sleep or walk. I had the utmost distress in my joints and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good. I am so much better—cured, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully,

JAMES CUMMINGS.

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommends it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County.

Fordham, August 13 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits. We tried almost every thing for her, but to their sorrow, at last, did not think we could find no remedy. I noticing your certificate for a little boy, who thought, as she was in a decline from ill health, we would give her a trial of your Sarsaparilla, and am very glad we did, for it has completely restored her strength. I am sure she had no symptoms of Fits, to our great surprise and surprise. She is fast becoming a stout and healthy girl, for which be thankful. Yours respectfully,

JOHN BULTER, Jr

FEMALE MEDICINE

Dr. Townsend's Sarsaparilla is a sovereign and a certain cure for Incipient Consumption Barrenness, Prolapsus Uteri, Fluor Albus or Whites, Costiveness, Piles, Incorrectness Whites, obstinate or difficult Menstruation, Incontinence of Urine or involuntary discharge of urine, and Female general constitution of the system, in short in all cases where the result of inherent causes, causes produced by irregularity, illness, or accident. Nothing in the case simply using this invaluable medicine. Female Remedy. Persons all weaker subject to suffer, from taking it at one, be consulted all female complaints, the influence of which depends on that the weakness of the female, which is the great cause of Barrenness—It will not be injured by any case whatever, be a natural, or accidental, or premature birth. It is that invaluable medicine which has proved so effectual in producing a healthy offspring. It is that invaluable medicine which has given so many childless parents the blessing of a healthy offspring.

TO MOTHERS AND MARRIED LADIES

This medicine of which we speak, will be found especially prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, *The Turn of Life*, should neglect to take it, as it will in a short time prevent the *inconvenience and pain* to which females are subject at this time of life. They may *be delayed for several years*, but *inevitably come*. Now it is invaluable for those who are approaching women to use it as a child related to the system by quick and healthy blood, and by giving vigor to the system. Indeed it is an invaluable for the delicate diseases to which women are subject.

It strengthens the whole system, renews permanently the natural energy of the body, by removing the impurities of the blood, and restoring to perfect regularity subsequent functions—which is the cause of much misery and premature decay and death. By using a few bottles of this invaluable medicine, many severe and painful sufferings and evils may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most efficacious cure for purifying the system, and relieving the sufferings attended upon child birth, even from the first. It strengthens both the mother and child, prevents pain and disease, increases and cures health. For those who have used it think it is its highest praise.

It is highly useful both before and after confinement as it prepares the system for the labor, and after it, it strengthens the system, prevents swelling of the Feet and Legs, Hemorrhage, Weakness, Pain in the Back and Loins, Bearing Down Pains, Costiveness, and in regulating the secretions and equalizing the circulation in the system of the mother and child. It has been used in many cases with success, and in the most delicate cases it must succeed, and the most fastidious can use it without a blush. Exercise in the open air and light food with this medicine, will always insure a safe and easy confinement.

BEAUTY AND HEALTH

Cosmetics, of course a variety of pernicious generally in use, and supplies to the Face, Neck, Arms, and Hands, which are destructive, since, when nature is not thwarted by the use of poisonous, the skin is made by the ultimate used in so unnatural a way, production to the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free and healthy circulation of the fluids of the skin, arising from the pure, rich blood in the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable elegance and flushes to loveliness that all admire but none can define. This beauty is the offspring of nature—not of *powder* or *soap* or *paint*, and healthy circulation, there is no beauty. If the leaf is fair as driven snow, if the paint and use cosmetics, and the blood in thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Let us in the north, who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complex ones, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station prove our office daily.

NOTICE TO THE LADIES.

Those that know Dr Townsend's Sarsaparilla have invariably called their *stuff a great remedy for females, or fits*, and have applied our bills and circulars which relate to the exclusive diseases of women, word for word—other men who put up medicine have, when they saw the success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended Sarsaparilla, although previously they did not. A number of these Mixtures, Pills, &c, are spurious or Counterfeit, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate disease of the blood. Three persons cured in one house in Westchester.

THREE CHILDREN.

Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad sores, have taken only four bottles, it took them away, for which I feel you ill under great obligation. Yr respectfully,

ISAAC W. CRAIN, 106 Wooster st

OPINIONS OF PHYSICIANS.

Dr. Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market. H P PULING, M D, J V LANSIN M D, R R BRIGGS, M D, P E ELMENDORF, M D.

Albany, April 1 1846

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have so *closely copied our advertisements*—they are worthless imitations, and should be avoided.

Principal Office, 196 Fulton st., Sun Building, N. Y. Sold Wholesale and Retail in Bangor by G. W. CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR *COLDS, COUGHS, ASTHMA and CONSUMPTION!*

BUCHANS HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, will, if taken as directed and persevered in, the most certain, agreeable, and effectual curative of these formidable complaints, now known to the civilized world.

Thousands at time of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country, as the great and only REMEDIABLE REMEDY in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, coughs and inflammations that can be only be used.

INCONTESTIBLE PROOFS

Of the efficacy of this Balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY.

DR. BRADLEE—Dear Sir. The Hungarian Balsam is, beyond all question, a most perfect and admirable preparation for diseases of the lungs. I have used it in my family, and in my professional practice for more than two years with the most uniform and entire success, in cases of *severe Pulmonary disease*, and I can conscientious by recommend it to all who are afflicted with the most distressing malady of lungs unknown with which I am acquainted. Yours respectfully,

FREDERIC J GOODRICH, M D

Saco, Me., May 22, 1846

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman.]

While we vindicate quackery, we are always pleased to give credit for that which is really useful, and to give information which may benefit others. A few days ago a brother of ours, from Norway, Me., came into our office in comfortable health, whom we did not expect to see again on earth. We recognized him as a brother since, from another brother residing in the house with him, saying that he was confined to his bed and could not probably continue but a short time. Judge then of our surprise when we saw him enter our office. He has a slight cough remaining, so it would be natural that he should have, and he has had further time for acquiring strength of lungs. But he is in comfortable health. The following letter which he addressed to the general Boston Agent for the Balsam which has restored him so wonderfully will show what medicine has been the instrument of the good work.

Boston, Feb 16, 1847

Dr B F Bradlee—Sir—I cannot refrain from saying a word to you in commendation of Buchan's Hungarian Balsam of Life. Here is a plain statement of facts in relation to my case and if they are of any service in inducing the sick to seek relief for one source from whence I obtained it, I shall be thankful.

My residence is Norway, Me. Three years ago last fall I took a violent cold which left a cough or the most aggravated kind, accompanied by a severe pain in the left side. Last June I had to cease my labor, that I was obliged to quit all work, and was confined to the house and at one four weeks more. During all this time I received the best medical advice, and tried nearly all the medicines which are recommended in such cases, but could find no relief, but grew worse and for the last three weeks was confined to my bed. Two of my physicians gave me up as just recovery. But as a friend would have it, I heard of the Hungarian Balsam, and immediately procured a bottle. It gave me instant relief, and six bottles have broken up my cough, and placed me in a situation to resume, with advancing health, my usual occupation.

BE WISE TO-DAY

Delay in any case of Consumptive tendency, is emphatically Death, and for ordinary treatment, the Hungarian Balsam is a great ANTIDOTE. As well as CURE of LIVE. If you have any symptoms above described, be advised in time.

5 lbs large bottles at only one dollar per bottle.

The Graefenberg Company

HEREBY give notice that their *New England Branch* is established at No 154 Washington street, Boston, the Secretary of which is Mr. EDWIN C. BARNES, who is prepared to appoint Sub-Agents for the sale of their celebrated *MEDICINES*. Application should be made either personally, or by mail, post paid. *The Graefenberg series of Medicines* consists of the following preparations to which public attention is invited, viz.

The Graefenberg Vegetable Pills, which are inconceivably superior to any ever before discovered. All *Chronic Diseases, Bilious and Lowel Complaints Costiveness Dyspepsia, Fever and Ague, Headache, Jaundice Liver Complaints, Rheumatism*, all *Stomach Complaints, Green Sickness* etc., yield at once to these pills. They purge away offensive humors, arrest the progress of disease, and at the same time restore tone and vigor to the system. In cases of general derangement of the health they are SOVEREIGN.—*Price 25 cents a box.*

The Graefenberg Children's Panacea. This is a Medicine which should be in every family. In all diseases to which children and youth are subject, and for *Summer Complaints, Dysentery*, and all other affections of the stomach and bowels it is infallible. Price 50 cents a bottle.

The Green Mountain Vegetable Ointment.—This is an Indian remedy, the receipt for which was obtained by one of the early settlers of Vermont from the Indians. It is an invaluable dressing for *Burns* and *Scalds*, and by its use all bruises and fresh cut wounds are cured with great rapidity. Price 25 and 50 cents a box.

The Graefenberg Sarsaparilla Compound.—This unequalled extract is immeasurably superior to any Sarsaparilla preparation now offered to the public. One bottle of it is warranted to make two quarts of the strength of dinarily sold. Price one dollar a bottle.

The Graefenberg Eye Lotion, which for disorders of the Eyes has no equal, for violent inflammation, weakness, or foreign substances in the eye, it is a positive and speedy cure. Price 25 cents a bottle.

The Graefenberg Health Bitters.—These Bitters stimulate the stomach, promote tardy digestion, impart tone and elasticity to the feeble body, and exert their salutary energies with surprising rapidity. Price 25 cents a package.

Patent Mill Wheels.

Timbey's Patent

Two Vent Cast Iron Water Wheels

—FOR—

SAW MILLS,

Invented by T. R. Timbey of Cato N. Y.

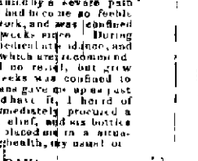
THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them, with the same head and quantity of water applied, as possessing and combining *more Strength and Speed*, and using a more *uniform and Steady Motion* in and out of the cut (and therefore not liable to break cranks), and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the nozzle large and allows the "drift stuff" to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere.



AIR TIGHT

COOKING STOVE,

IMPROVED FOR 1848,

Combination of the greatest improvements of the age—Four sizes.

THIS Stove commends itself to the attention of Ladies and Gentlemen who are interested in combining *Economy and Convenience* with their Domestic Affairs. As all food passes the ordeal of same Cooking Apparatus to make it palatable or proper for the use, it is very important that every family should procure the best Apparatus for the purpose and which at the same time shall consume *the least amount* of Fuel or incur the *least expense*.

PRIAM OF TROY IS THE STOVE

for it has a very LARGE OVEN, probably as large as any (equal size) Stove, ever offered to the public which is heated quickly and perfectly even by means of Deep Hollow Grooves, in the back and bottom of the Oven, exposing from *three to four hundred* square inches more surface to the Oven than can be done by a plain surface. Consequently a very Small amount of fuel being arranged in this Air Tight Stove, and applied to the Oven, renders it one of the *BEST BAKING OVENS* to be found in New England.

There is a Set of large Rings or Rings connected with the Stove, so that our Farmers and all who wish to use large Brass or Iron Kettles, or any kind of old fashioned Ware, holding from one to ten pails, can do it at their pleasure. The whole Stove is regulated by means of only ONE DAMPER, is neat in its appearance, and in fact is one of the *best Companions for the Kitchen* now in use, as thousands who now have them will testify.

—ALSO—

A large and well selected assortment of COOKING, CYLINDER, PARLOR, FRANKLIN, PARLOR, and AIR TIGHT STOVES, Copper, Sheet Iron, Tin Ware, &c., for sale by

Wm. S. Mitchell & Co.,

EAST MARKET SQUARE,

Opposite Granite Block, Bangor, Me.

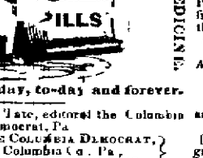
THE ORIGINAL AND ONLY



GENUINE INDIAN MEDICINE

The same yesterday, to-day and forever.

Certificate from Col Tate, editor of the Columbia Democrat, Pa.

OFFICE OF THE COLUMBIA DEMOCRAT, Bloomsburg, Columbia Co. Pa., March 11 1848

Dr William Wright—Dear Sir—I am one of the many whose aversion to quack nostrums has deprived them of the benefits resulting from the use of good medicines. Acting under this influence, I have seldom resorted to the Pill box. Last March, when you commenced advertising in my paper, I was induced to give your Indian Vegetable Pills a trial, and after having fairly tested the effects for myself and family, gave them a decided preference over every other preparation.

In every instance, when afflicted with sick headache, or when the stream of life was encumbered with morbid humors, I found speedy relief from the use of your Pills. By taking from four to six on going to bed when indisposed, I have always been restored to health, without loss of time and without the expense of a physician. Wright's Indian Vegetable Pills possess the distinguished merit of operating effectually, without disturbing the rest of the patient, and in my case, without producing even sickness at the stomach.

Respectfully, your friend, &c

LEVI L TATE

[From the Delaware Express Delhi N Y]

WRIGHT'S INDIAN VEGETABLE PILLS.—Although not particularly friendly to patent medicines we must confess that we have become a convert to these pills having had an opportunity on one or two occasions to test their efficacy. For a gentle medicine, one or two will be found mild though effective. Where 36 or other imperfections have accumulated, and more thorough medicine is required, a dose of three or four of these pills, taken on going to bed, will be found effectual in cleansing the stomach and restoring the bowels to a healthy state. We speak from experience, and take pleasure in commending the pills to the public.

Look out for Counterfeits!

Same are coated with sugar; others are made so resemble, in outer appearance the original article. The safest course is to purchase from the agents only, one or more of whom will be found in every town and county in the State.

PRIAM OF TROY

AIR TIGHT

COOKING STOVE,

IMPROVED FOR 1848,

Combination of the greatest improvements of the age—Four sizes.

THIS Stove commends itself to the attention of Ladies and Gentlemen who are interested in combining *Economy and Convenience* with their Domestic Affairs. As all food passes the ordeal of some Cooking Apparatus to make it palatable or proper for the use, it is very important that every family should procure the best Apparatus for the purpose and which at the same time shall consume *the least amount* of Fuel or incur the *least expense*.

PRIAM OF TROY IS THE STOVE

for it has a very LARGE OVEN, probably as large as any (equal size) Stove, ever offered to the public which is heated quickly and perfectly even by means of Deep Hollow Grooves, in the back and bottom of the Oven, exposing from *three to four hundred* square inches more surface to the Oven than can be done by a plain surface. Consequently a very Small amount of fuel being arranged in this Air Tight Stove, and applied to the Oven, renders it one of the *BEST BAKING OVENS* to be found in New England.

There is a Set of large Rings or Rings connected with the Stove, so that our Farmers and all who wish to use large Brass or Iron Kettles, or any kind of old fashioned Ware, holding from one to ten pails, can do it at their pleasure. The whole Stove is regulated by means of only ONE DAMPER, is neat in its appearance, and in fact is one of the *best Companions for the Kitchen* now in use, as thousands who now have them will testify.

—ALSO—

A large and well selected assortment of COOKING, CYLINDER, PARLOR, FRANKLIN, PARLOR, and AIR TIGHT STOVES, Copper, Sheet Iron, Tin Ware, &c., for sale by

Wm. S. Mitchell & Co.,

EAST MARKET SQUARE,

Opposite Granite Block, Bangor, Me.

Also, Cistern Pumps, Lead Pipe, Sheet Lead, Zinc, &c. Agents for Locke's Patent Platform and Balance SCALES.

NEVER DESPAIR OF LIFE!

KELLEY & CO'S

HIGHLY CONCENTRATED

SARSAPARILLA,

Cures the Worst Diseases, that prey on the Human System, and saves Thousands of Lives Annually!!

10,000 CASES

OF SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and BILIOUS COMPLAINT *proof* can be furnished. This is the only medicine known to cure these dreadful cases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and be found superior to any in use. It is put up in the FULL STRENGTH and power without reducing it and this is done for the special benefit of those who use it as it is not equal to all other Sarsaparillas that they are Weak, Cloudy, Adulterated, Sickish and are whose inexpedient reduce the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other, and Six Times Better and Cheaper than all others. *THIS* Sarsaparilla has bestowed on it some of the best Medical Talents and Skill in the world, and CURES the Sickness Bill Sick all the Pain and Rheumatism all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Cankers, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH KELLEY & CO'S SARSAPARILLA

A PHYSICIAN, who is really the most distinguished of any in a large City for professional CERTIFICATE stonishing as it may seem, this is actually CURED in a case in Consumption with Kelley & Co's Sarsaparilla, and Rose with it no medicine on which he has so much confidence for Diseases of the Lungs. Some are well at this REMARKABLE Cure. Thousands are knowing to the fact. This INVALUABLE Sarsaparilla is also doing wonders in Dropsy and Gravel.

SIR BENJAMIN BRODIE

Surgeon to the Royal Family of England says there is no other medicine which will so well doing so MUCH GOOD and CURES BY MEANS of doing injury. What distinguished Physicians are there? Never was there a medicine so well with STRONGER RECOMMENDATIONS CURES when every thing else fails.

Severest Scrofula and Humors

where the flesh falls off the bone—the bones discased and the DART OF DEATH seems to strike the sufferer. And the reason why that it makes the BLOOD perfect Healthy Quick Free, Nutritious—It KILLS these ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Sodden Hard of Strength wasting, Appetite gone, the Nerves of Feverish Skin, Low Nervous debility, Stores Health, Strength, and Vigor to every ordered function of the System—causing it to move on just as Nature requires. And it WONDERFUL Power over Disease in every and part which no other Medicine possesses. It public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas is, that it does not stop per with the patient, or prolong his suffering. It first attacks the disease and stops the mischief, then brings up the health and strength in a perfectly pure Blood so that the cure is always enough and permanent. Otherwise again the disease but this EXTREMES cut off from the system—this saves the patient and others endanger it. The whole Body is made healthy by the use of this GIANT MEDICINE the System so vigorous—Mind so clear—Nerves so quiet—Skin so fair—Spirits so buoyant.

Medical Colleges, Professors, and Physicians always prefer it for the sake of its power. Try it, all you who are seeking the HEALTH LESS BLESSINGS OF HEALTH

Ladies, Married and Unmarried

It is for you, especially, that this Sarsaparilla is made, as the "HEALING ART" has been taken to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought but it is that all the members such are used with the hope of Cure, so invariably and entirely all in this Sarsaparilla has the SPECIAL power to cure every Disease Affliction, or Pain which comes under the head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part
